NATIONAL
Farm Safety &
Health Week
September 15-21, 2019

Stay Healthy On The Farm

1. Keep food and drinks out of animal areas. This includes bottles, sippy cups, and pacifiers.
2. Wash your hands with soap and water after visiting the animals and before eating. Do not use hand sanitizer as it does not work against all germs.
3. Don't touch your mouth. That's how germs get in your body and make you sick.
4. Wear appropriate clothing and shoes. When you get home, change your clothes and shoes and wash them.

Equipment Safety Tips

1. Read and comply with the operator's safety manual for each piece of farm equipment.
2. Keep all guards, shields, and access doors in place when the equipment is in operation.
3. Be aware of what you are doing and where you are going.
4. Adjust equipment speed to fit operating conditions.
5. Keep children and other people away from the working area.
6. Allow the engine to cool before refueling.
