Please help support the Tatum family through, their daughter Harlow Jean Tatum battles with a congenital diaphragmatic hernia. A standard ultrasound showed that there is a hole in Harlow's diaphragm with her stomach, part of her liver, and intestines rising into her chest cavity moving her heart to the right side of her chest. Her left lung is a fraction of the size it should be and her right lung is slightly smaller. She will need surgery immediately after she is born. Harlow is due Nov. 29 and is expected to spend the following weeks to months in the NICU in Minneapolis, Minn. Parents Brea (Gutknecht) and Charles will be spending three weeks before Harlow's birth and the extended NICU stay in Minneapolis. If you're unable to attend and would like to help the Tatum family, donations can be mailed to: Tatum Family, 464 Larado Dr., Bismarck, ND 58504.
