The recent warm temperatures and sunny skies have been nice – but we all know what's waiting for us just around the corner – Winter! The cold and snowy season is almost here and the question is – are you ready for it?

You should ... Get a Kit ... Make a Plan ... and Be Informed. Keep a high level of situational awareness by listening to the forecast every day. When snow, sleet, or freezing rain is in the forecast expect that it will impact your day to day routine, and be ready when it does!

Mercer County Sheriff's Dept. Travel Advisories What they mean –

Use caution advisory – is issued by this office when visibility is reduced and driving conditions require that people reduce speed.

No travel advised – means that law enforcement and the highway department have determined that near zero visibility is occurring and/or that the driving surface of the road is blocked or covered with ice and driving is a deterrent

Road closed no travel allowed – (extreme conditions are present) is issued when roads are blocked and vehicles are stuck on the roadway. No travel will be allowed by any vehicle regardless of the situation. Barricades or officers will be blocking the roads leaving and entering the closed area. Drivers going around barricades will receive complaint and summons to district court. Schools, mines and power plants will be notified by phone.

All this information is given to the weather service and television and radio stations as it is occurring.

Winter Weather Terminology

Watch is issued when the risk of a hazardous winter weather event has increased, but its occurrence, location, and/or timing is still uncertain.

Warning or Advisory is issued when a hazardous winter weather event is occurring, is imminent, or has a high probability of occurrence. A warning is used when there is a threat to life or property. An advisory is for less serious conditions that cause inconvenience, and, if caution is not used, could lead to situations that may threaten life or property.

Snow criteria for a warning is 6 inches or more in 12 hours or less, OR, 8 inches or more in 24 hours or less. Snow criteria for an advisory is 3 to 5 inches.

Winter Storm Warnings and Winter Weather Advisories may be issued for a combination of elements like snow coupled with wind and blowing snow, or snow coupled with sleet and freezing rain.

• **Sleet** is pellets of ice. Sleet bounces when it hits the ground.

• **Freezing Rain** is rain that freezes when it hits the ground or objects on the ground. It forms a sheet or glaze of ice.

• **Ice Storm** is used to describe occasions when the ice from freezing rain is significant enough (1/4 inch thick or more) to cause damage

• **Blizzard** is a storm with winds of 35 mph or higher AND visibility frequently below 1/4 mile in snow and/or blowing snow AND these conditions last three (3) hours or longer. There is no set temperature requirement for a blizzard.

Wind Chill is that part of the cooling of a human body caused by moving air. Moving air accelerates the rate of heat transfer away from a human body.

• **Wind Chill Advisory** is issued for wind chills of 25 to 39 below zero with a wind speed of at least 5 mph.

• **Wind Chill Warning** is issued for wind chills of 40 below zero and colder with a wind speed of at least 5 mph.

So, what's in a number anyway that matters?

A man who had taken to referring to an ex-person as his "first wife" was really "leaning into it" as they say about challenges. He was eating out with that person. Again.

She said she did not like being referred to as a "first", when as far as legal records show, she was the only. Eager to put the discussion to bed, where so many discussions end up for people, he quickly went into his peacemaker role. He asked, "Well, what number would you like to be?"

Last reports had the person of the first part in the kitchen of the cafe seeking to borrow a large skillet from the cook. Must have felt the need to punctuate a remark. Her final comments to her dinner companion were, "Shave that white fuzz off your face. It looks like you made a mask out of a mangy weasel hide! You 'Santa wannabe!'"

So, I started to wonder what's in a number, anyway? And what does it matter? Well, as I pondered it, there's quite a bit in a number. For some, our whole future and destiny is tied to a number. Case in point, when I lined up with a lot of other guys at the Army induction center, we were ordered to count off. When we were done, they said "congratulations". Every third man is going to the Marines. They're coming up short recruiting. It was 1966 and Marines were in short

TRACKS IN THE SAND KEN BEAUCHAMP

supply. I don't remember what my number was, other than it wasn't in the divisible by three column. My cousin, Pete, was old lucky 18. Fortunately, he went to Vietnam and lived to come home, safe, sound and in one piece.

Thinking on it, the military is fond of numbering its folks. Everything from Private E-1 to five star general are numbered. In Vietnam, really good was "Number 1". Bad, "Number 10". Here at home a female "10" was the stuff movies were made of. I note that the value of the number might depend on the context in which it is used. Number 10 might be very acceptable, while an ex-person might score at a lesser level for all the different reasons. A "10" one week might be a zero the next. Or hovering at "first", depending on attitude. I hold a respectful reverence for all women, probably the result of being forced in to submission and captivity at a young age by a mother and three older sisters. Trust me. All of them could have been Nazi tank commanders. I think I was around 30 before it occurred to me I had a mind of

my own and man does not live by guilty conscience alone. Did I mention, I carried 50 or so "vanity pounds". You know. The ones you could lose if you really wanted to. Did I mention my soft pillow in the conscience kingdom was akin to sleeping on a cement block? Surrounded by so much good, what choice did a boy have but to go bad? That's my excuse and I'm hanging onto it. At least until I run out of sisters and a few others, who do not like to be mentioned here. You heard it here. First!

I have mentioned before that I was forced to number my employees. Just for a while, although it has lingered. At the time they were for it. They said it beat listening to me call out all their names, looking for the right one. Said it sounded like Santa calling to his reindeer, only more weird. Christmas in the Twilight Zone. Well, they are all dears and all number one or 10, whichever they like. Or both for that matter. One must remember the rules about sequential and preferential and refrain from assigning value to numbers. I'll

probably get hit on the head by someone with something before I get out of this one.

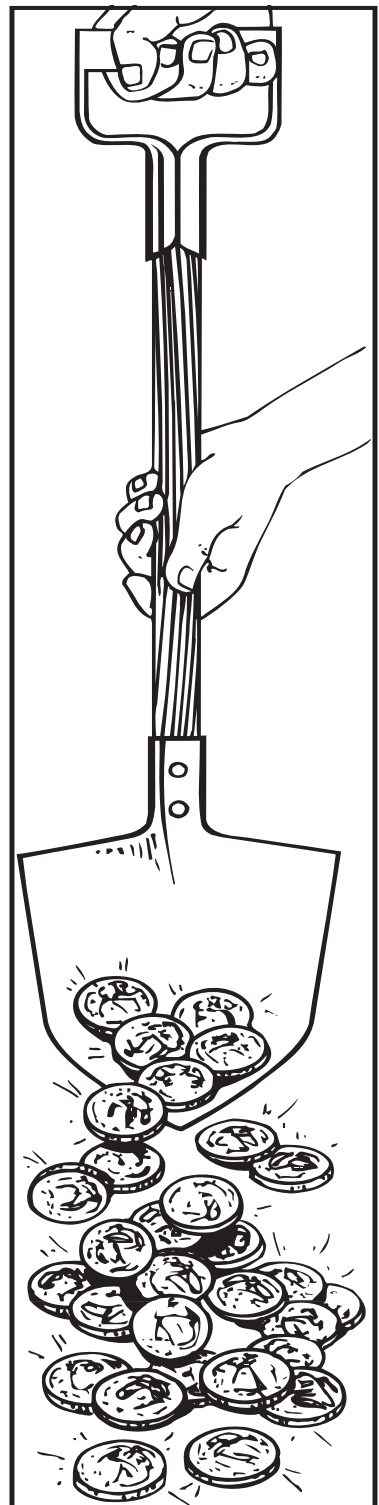

I have a friend who is married to wife number two. She's a sweet gal. She tells everyone she was scared of me for the first 10 years she knew me. I never ask why she got over being scared. I wonder more what would life have been like had I never gotten over being scared of all women. One random act of kindness and my whole destiny changed. I could have been a ten. Or a one, depending on where you are, I guess.

Anyway, she was recently telling how she had trouble getting her pant legs down over her calves. Now, if she were my wife, I would have assured her that it was no problem. Out here in cowboy country, we like fat calves. Place great value on them, in fact. Fat calves are a big Number One".

Likely, she will begin telling people how long she hated me. Well, I can't help it. I don't have that kind of experience being nice. And, I didn't bring it up. Which I am sure doesn't matter if you accept delivery.

Anyway, first or last really doesn't matter. Did I mention anything about status as "best husband"?

It probably skipped my mind, tired, as I am from sleeping on a cement block and working to keep my weight up past government standards.
