National Donor Day - February 14

Valentine's Day has a new meaning when you need an organ transplant to survive. 120,000 Americans currently waiting for precious organ transplants depend on the public to sign up with their state's organ donor registries on National Donor Day every February 14. It's a more concrete way to show love than giving heart-shaped candy, roses and red velvet teddy bears. By donating organs such as corneas, tissue, marrow, platelets and blood; you create a living legacy of your generosity with the ultimate gift of love.
