# Hoping for impact from FB 'Faces'

BY SUZANNE WERRE,  
BHG NEWS

The announcement by Great River Energy earlier this year that it was contemplating closing down Underwood's Coal Creek station power plant sent shockwaves throughout not just coal country but the entire state. Closure of the power plant would impact workers not only at Coal Creek Station but the adjacent Falkirk Mine, which supplies coal to the plant, as well as the communities the miners and plant workers call home.

Not everyone is willing to take a wait-and-see attitude regarding that possibility as Beulah's Mark Pierce has started a "Faces of North Dakota Coal" Facebook page in an effort to bring awareness to what coal and the ability to work at a coal-fired power plant or a coal mine means to the thousands of people in the area.

"It's a grassroots movement," is how Pierce described his Faces of North Dakota Coal FB page.

The Facebook page, which vaulted from about 200 followers to 2100 recently, is just the first step of many he hopes to be taking as the movement moves forward and gains momentum. He figures he has several hundred people who are active on the page but not officially connected as "liking" or "following."

There was a Faces of North Dakota Coal rally planned for last Thursday night when McLean County had a public meeting scheduled to discuss power lines going through the county, but because of the COVID-19 outbreak, the rally was canceled. He was expecting

about 500 people to show up to show their support for North Dakota coal and coal miners.

He's working on other events, he said, but until the COVID-19 pandemic allows gatherings, those plans are just that – plans.

For now he's focusing on the Facebook page, which highlights power plant and mine workers and their families, typically with a family picture and bio.

"I want people to see who we are, what we do, and the impact we have on the state, the region and all the other people that we have an impact on," said Pierce.

His effort is a way to really humanize the impact a closure would have on the workers, families and communities would have. He's relying on the heavy hitters to do some major work on behalf of the miners and power plant, and a lot of those heavy hitters are friends of North Dakota coal.

"There are a number of public officials, numerous individuals from other organizations, pro-coal organizations that are on this – lots of public relations and government agencies, people from a lot of different companies that are on this page," said Pierce.

He doesn't have proof, but he's been told that the Faces of North Dakota Coal Facebook movement is one of the top reasons why Senators John Hoeven and Kevin Cramer earlier this month introduced an amendment that would repeal the wind production tax credit.

His "Faces" page is getting a lot of traffic and a lot of buzz. He's had others who are trying to do similar

platforms reach out to him saying they'd love to have his traffic.

"I'm getting 10-fold what they're getting," he said.

And that translates to a lot of information getting out to the public.

"My ultimate goal is to be an ambassador and advocate for the coal industry," said Pierce, who works at the Coteau Mine near Beulah. "And to educate people on what this industry represents."

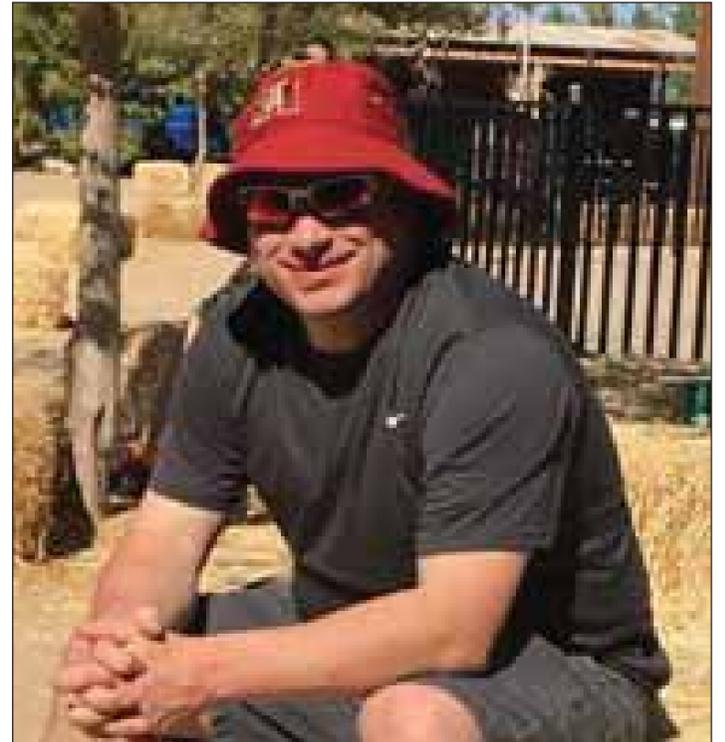

"Do I want to save that power plant? You're damn right, I do," he added.

The rally for last Thursday didn't happen but Pierce is working on setting a new date for the tailgating rally, and when it happens, it's going to be big.

"The plans are on hold due to the COVID-19, but we just couldn't move forward with it at this time to hold that event," said Pierce.

He suspects the COVID-19 outbreak may actually help the coal industry in a way, bringing to light the necessity of having reliable base load power coming from coal-fired plants.

"It's essential during a national emergency to keep hospitals going, to keep critical infrastructure up and going," said Pierce. "And this industry does it better or as well as anybody else."

Submitted photo

Mark Pierce of Beulah is the force behind the Faces of North Dakota Coal Facebook page.

Honestly, in North Dakota we do it cleaner and better than anybody else anywhere else.

"I wholeheartedly believe that this industry is going to come through this fine," he added.

With the world working on its social distancing, Pierce plans to continue

with his social media, using Facebook and the Faces of North Dakota Coal to keep the issues of the coal miners and plant workers, and their communities, in the forefront.

"My plan is to keep this thing going and see where it goes. I think it could have a big impact," said Pierce.

# Might one as well die happy as not?

There was an informal survey. It probably consisted of four winos sitting at bottle passing distance on a street corner in Somewhere, USA. The conclusion was that nothing pisses a corona virus off like the sound of human laughter. It might even drive them to self-destruction. Maybe those are the kinds of thoughts you have when you sit around sanitizing your liver and other internal body parts. To say nothing of anesthetizing your brain.

I'm tired of looking at television and seeing mostly people who have that "run over dog" look on their faces. They say there are mostly two kinds of Christians. Those who look down to the grave and those who look up to Jesus. Count me among the upward lookers. I've survived marriage, wartime, actual death, a lightning strike and some lesser calamities. I'm not anxious to go home, but I'm ready what ever way it goes.

While I'm not really blessed with the ability to anoint folks with laughter, I try. Just to make myself feel better. Just the other day, I walked up to the drive-up window at my bank. While I was doing my business the Chief of Police walked up and asked if I'd handed the teller, a very nice young lady, a note.

I had to admit I had. I told him I'd demanded all the money and her phone number. She seemed willing to bag the money for me but no sign of budging on the phone number. Even though I was about to become a rich man.

If she was about 50 years older this wouldn't be quite as funny. In fairness, this was one of those "you'd have had to been there" moments. I'm not sure but I thought I saw a herd of Corona virus grumbling and headed for a nearby bar. Where they weren't gonna be much happier because that bar, like all the bars,

**R O C K I N H O U S E**  
**K N O C H P**

was closed. Courtesy of you-know-who. Well, I wasn't that happy when my mouth was all set for a 16 ounce rib eye and a baked potato last night. Dang Coronas!

While sitting around eating a "Hot Pocket," I got to thinking about how, in olden times, we used to have something called Chicken Pox. To this day, I can't tell you if it comes from chickens or it was just a nasty rumor.

I think, it too, was a virus that made bumps on your skin and you got a fever, etc. If you scratched the things, which itched terribly, it broke them open and made scars, kind of like the dreaded small pox of days past. Make a long story short. No one wanted to be around you because it was contagious as all get out. And, if you had chicken pox in your youth, you are fortunate to have the shingles virus living inside of you, thanks to those darn chickens.

But, all was not gloom and darkness. If you had the pox, you couldn't go to school. You had someone pick up your homework, deliver it to your door and aside from having your mom (most of whom didn't work and stayed at home then) fawn over your broken out, itchy carcass life was not much different.

It was kind of the same thing with measles, which today create a crisis and people die. Luckily, we have immunizations for those things, as we do for polio, which struck terror into the hearts of children who feared they could get it and be crippled for life. And parents who wrung their hands

and worried they be stuck for life with a kid. Just kidding, they still thought at age 18 kids were not longer a parental liability. You can go ahead and laugh. This is what us unfunny people call "dark humor".

I always say that I am never the smartest or best educated person in the room. Any room. However, uncertainty is the foundation of the intelligence of the wise man, who is known to simply utter, "We'll see".

That is where we seem to be. What we don't know about this virus is more than we know. Nothing we know about it, at this time, is good. God created the ending and worked backwards to a beginning. This won't likely be an ending but something of a new beginning. Until then, we can look downward to the grave or upward to what we believe in as individuals of one Creator.

Lastly, I don't know if corona viruses care about laughter one way or another. I don't see, for some time, any jokes that begin with, "Did you hear about the two corona viruses that walked into a bar? I hope that those of you who use it have enough liver sanitizer on had for the duration, since the comfort rooms are all locked down.

Gun sales are up. Booze sales are down Only in America! But, I do love Her. I just can't drink to Her anymore. Did you hear the one about the priest, the rabbi and the corona virus that got on a plane? And found out they didn't have anywhere to go? Sorry, that's all I got.

## Mayors of Hazen and Beulah STATEMENT ON COVID-19

First and foremost, the Health and Safety of our communities is our top priority. We want to be thoughtful and safety minded in this time of uncertainty. Based on the Federal Government and the state of North Dakota's declaration of Emergency, our cities are covered by their declaration and do not need to formally declare one ourselves.

We want our communities to band together like never before. We encourage community members to be local minded. Practice social distancing the smart, coal country way. Many of the businesses in our towns have taken steps to maintain social distancing while still providing services. Closing lobby areas, for instance, but keeping drive up windows open. As the Governor stated yesterday, "This is a time for innovation."

We want the grocery stores, restaurants, gas stations and all businesses to find ways to continue business with minimal differences, or disruptions. Promote takeout, promote in and out, and promote staying local. Use drive-up windows, use technology to pay bills and use minimal contact methods for normal commerce. We don't want to mandate, or regulate, your activities through the City Government. We want businesses to take charge and self-regulate. Discourage congregating at your locations as much as possible. The Cities are committed to providing services like water, sewer, garbage pickup and police and fire protection.

Thank you for your cooperation!

Travis Frey  
Mayor of Beulah

Jerry Obenauer  
Mayor of Hazen

## COVID - 19, JUST THE FACTS

There is still a lot of confusion about what happens in the process when a person is declared positive, and then who really is contagious.

Once a person is confirmed positive, Local public health gets a call with only the information of County of residence (Listed on the test form), age and gender. We do not get any other information, but even if we did we could not share that... due to HIPAA. Local Public Health Units, as well as others trained to do case investigation, will then start to get close contacts.

A close contact is someone that has been within 6 ft of a person for more than 15 minutes. So a person that is a casual contact or perhaps in a building would not be considered a contact.

Only people that are considered close contacts will be notified, and asked to self-isolate for 14 days. They are followed by their case investigator every day for 14 days to

follow symptoms. They are not considered contagious until they get symptoms, at which time they would be tested. At that time, the process would start over, meaning they would be asked their close contacts, and followed for that 14 days.

A facility would not have to close, if someone was "in their facility, or a person was related to someone that worked there" etc...

At this time, unless we call you, you are not considered a close contact, and thus not exposed. The reality is that COVID is out there, and everyone needs to continue to take precautions. We will persevere!

### Dear Chamber of Commerce Members and Communities,

We are going to continue working on your behalf in both of our communities, while working with governmental officials during the COVID-19 pandemic.

The goal of the Chamber is to ensure that the information we share is accurate, informative and researched. The goal for our business and nonprofit members is to ensure the safety and well being of your employees, volunteers and customers.

The goal for our communities is to continue to support local in ways that are safe and appropriate. We are going through this together and need to count on each other to be calm, rational and considerate.

Check on your neighbors and at-risk community members by calling on the phone or sending private messages via social media. Both Chamber of Commerce offices are closed to the public, however; questions and concerns can be sent to hazenchamber@westriv.com or call 748-6848 and Beulah Chamber at Olheiser@visitbeulah.com or 873-4585. Thank you for your patience and support.

Gloria Olheiser

## Social tips for businesses during COVID-19

1. Communicate as much as you can!
  - a. Post! Post! Post!
  - b. If you have the funds for paid advertising, target your area to inform people of deals or how you are still making business happen.
  - c. Experiment with Lives! Facebook often notifies people directly when a page they like goes live. If you have Instagram, remember stories as well. The more you post in stories, the more Instagram will serve your content up to your audience.
2. Compassionate, but direct language.
  - a. Brands are addressing COVID-19 directly are seeing almost 30-40% higher engagements than brands who aren't. Here is what this looks like:
  - b. Speak as a community leader. Offer positivity and insights into what your business is doing to adjust to the new normal.
  - c. Tell me HOW you're doing. A direct and open dialogue with your community is essential when we have no other ways to communicate right now.
  - d. Show gratitude back to the community in return for their support.
3. North Dakotans support one another, connect with other businesses or large social presences to see how you can do that.
  - a. Set up a group call or reach out socially to other businesses in your city/county. Learn about what they're doing that is working or what is not working and see if there is a way to collaborate and uplift each other.
  - b. Reach out to tourism entities.
  - c. Reach out to larger social presences that represent who you are. See if there is any way to collaborate or share content to uplift each other on a larger stage.

# STAGE 1 BURN BAN FOR OLIVER & MERCER COUNTIES

As of April 2, 2020 for Mercer & Oliver Counties, which includes all Cities within the counties, will be under a Stage I Burn Ban ONLY WHEN the ND Fire Danger Ratings Map shows high, very high, extreme and/or a Reg Flag warning has been issued for Mercer County and/or Oliver County. You can see ND Fire Danger Rating Map if you go to the following website and scroll down to the middle: <https://www.ndresponse.gov/burn-ban-restrictions-fire-danger-maps>

### A STAGE I BURN BAN MEANS:

No controlled burns, no large pit fires and no burning garbage of any kind.  
No throwing cigarette butts or anything out in a grassy area or any area that may start to burn.  
No Special burning permission will be given for any reason.

### BUT,

You can have a Campfire in a developed recreational site or improved site, while always keeping an eye on it. You can use grills and units that have an on/off switch in an area that you can safely operate without starting a fire.

Remember even though you are allowed some options to burn this doesn't absolve an individual or organization from liability or responsibility for any fire started by the allowed activity.

### AND REMEMBER..

ANY INDIVIDUAL WHO WILLFULLY VIOLATES THIS BURN BAN IS GUILTY OF A CLASS B MISDEMEANOR (NDCC 37-17.1-10.1) PUNISHABLE BY A FINE OF UP TO \$1500 AND 30 DAYS IN JAIL. THE MERCER & OLIVER COUNTY SHERIFF'S DEPARTMENTS ARE AUTHORIZED TO ISSUE CITATIONS TO VIOLATORS.

When the Burn Ban is lifted, we are asking that all controlled burns be reported to the Sheriff's office, 745-3333, when the fire starts and then another call when the fire has been extinguished, Thank You!

Please Visit [www.mercercounty911.com](http://www.mercercounty911.com) for Fire Ban Updates.
