IN UNCERTAIN TIMES WE CAN FIND  
*refuge AND comfort* IN JESUS.

"YES, MY SOUL, FIND REST IN GOD; MY HOPE COMES FROM HIM.  
TRULY HE IS MY ROCK AND MY SALVATION; HE IS MY FORTRESS, I WILL NOT BE SHAKEN.  
MY SALVATION AND MY HONOR DEPEND ON GOD; HE IS MY MIGHTY ROCK, MY REFUGE.  
TRUST IN HIM AT ALL TIMES, YOU PEOPLE; POUR OUT YOUR HEARTS TO HIM,  
FOR GOD IS OUR REFUGE."

### Winter Weather Terminology

- Watch** is issued when the risk of a hazardous winter weather event has increased, but its occurrence, location, and/or timing is still uncertain.
- Warning or Advisory** is issued when a hazardous winter weather event is occurring, is imminent, or has a high probability of occurrence. A warning is used when there is a threat to life or property. An advisory is for less serious conditions that cause inconvenience, and, if caution is not used, could lead to situations that may threaten life or property.
- Snow criteria** for a warning is 6 inches or more in 12 hours or less, OR, 8 inches or more in 24 hours or less. Snow criteria for an advisory is 3 to 5 inches.
- Winter Storm Warnings and Winter Weather Advisories** may be issued for a combination of elements like snow coupled with wind and blowing snow, or snow coupled with sleet and freezing rain.
- **Sleet** is pellets of ice. Sleet bounces when it hits the ground.
- **Freezing Rain** is rain that freezes when it hits the ground or objects on the ground. It forms a sheet or glaze of ice.
- **Ice Storm** is used to describe occasions when the ice from freezing rain is significant enough (1/4 inch thick or more) to cause damage
- **Blizzard** is a storm with winds of 35 mph or higher AND visibility frequently below 1/4 mile in snow and/or blowing snow AND these conditions last three (3) hours or longer. There is no set temperature requirement for a blizzard.
- Wind Chill** is that part of the cooling of a human body caused by moving air. Moving air accelerates the rate of heat transfer away from a human body.
- **Wind Chill Advisory** is issued for wind chills of 25 to 39 below zero with a wind speed of at least 5 mph.
- **Wind Chill Warning** is issued for wind chills of 40 below zero and colder with a wind speed of at least 5 mph.

The recent warm temperatures and sunny skies have been nice – but we all know what's waiting for us just around the corner – Winter! The cold and snowy season is almost here and the question is – are you ready for it?

You should ... Get a Kit ... Make a Plan ... and Be Informed. Keep a high level of situational awareness by listening to the forecast every day. When snow, sleet, or freezing rain is in the forecast expect that it will impact your day to day routine, and be ready when it does!

### Mercer County Sheriff's Dept. Travel Advisories What they mean –

**Use caution advisory** – is issued by this office when visibility is reduced and driving conditions require that people reduce speed.

**No travel advised** – means that law enforcement and the highway department have determined that near zero visibility is occurring and/or that the driving surface of the road is blocked or covered with ice and driving is a deterrent

**Road closed no travel allowed** – (extreme conditions are present) is issued when roads are blocked and vehicles are stuck on the roadway. No travel will be allowed by any vehicle regardless of the situation. Barricades or officers will be blocking the roads leaving and entering the closed area. Drivers going around barricades will receive complaint and summons to district court. Schools, mines and power plants will be notified by phone.

All this information is given to the weather service and television and radio stations as it is occurring.
